6. ☐ Interview Summary (PTO-413), Paper No./Mail Date \_\_\_\_\_
7. ☐ Examiner's Amendment/Comment
8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other \_\_\_\_\_

## **DETAILED ACTION**

### ***Allowable Subject Matter***

Amended Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding amended Claim 1, the prior art does not teach or suggest a light assembly with a connector bracket assembly with a light attached to the bracket wherein when the vehicle leans in a first direction, the light pivots directly in response to the pull of gravity without the need (or assistance) for a sensor, a solenoid, or a gyroscope in a direction opposite the direction of lean of the vehicle.

Regarding amended Claim 8, the prior art does not teach or suggest a bearing assembly that operatively connects the bolt to the connector and the bolt is rigidly connected to the attachment bracket so that the bolt rotates with respect to the connector wherein the light assembly leans in a direction opposite the direction of lean of the vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Handemer (4,237,524) discloses a actuated headlight for a

Art Unit: 2875

motorcycle that pivots up or down upon acceleration or deceleration of the motorcycle but does not pivot directly in response to the pull of gravity in a direction opposite the first direction of lean of the vehicle.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert May whose telephone number is (571) 272-5919. The examiner can normally be reached between 9 am– 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on (571) 272-2378. The fax number for the organization where this application or proceeding is assigned is (571) 273-8300 for all communications.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval PAIR system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
